1976 *Silence* by Shusaku Endo (1923–1996)
Jacket design: Ivor Kaplan

The work of Peter Owen's long-time friend, the remarkable author and Japanese Catholic Endo, has grown steadily in stature internationally since its first publication in English. *Silence* is now seen as one of the great novels of the twentieth century and is a long-cherished film project for director Martin Scorsese, set to go into production in 2013.
